### DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 27, 2008 has been entered.
2. Claims **1-10, 26-43, 60-66, 72-78 and 124-204** are pending in this application.

### *Election/Restriction*

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims **1-10, 26-43, 60-66, and 72-78** drawn to *a method and system for providing at least one extra credit line to an existing credit card account*, classified in class 705, subclass 38.
  - II. Claims **124-135 and 139-151** drawn to *a method and system for processing credit card transactions*, classified in class 705, subclass 39.
  - III. Claims **136-138 and 152-154** drawn to *a method and system for performing transactions associated with a web site that corresponds to a credit card issuer*, classified in class 705, subclass 26.
  - IV. Claims **155-159** drawn to *a method and system for processing payments for a credit card account*, classified in class 705, subclass 40.

- V. Claims **160-165** drawn to *a method and system for editing a vendor profile*, classified in class 705, subclass 35.
- VI. Claims **166-124** drawn to *a method and system for a method for managing a financial account*, classified in class 705, subclass 36.

4. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III, IV, V and VI are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombinations in the Inventions I, II, III, IV, V and VI have separate utility. See MPEP § 806.05(d).

5. Because these inventions are independent or distinct for the reasons given above and there would be *a serious burden on the examiner* if restriction is not required because: **1) the inventions have acquired a separate status in the art in view of their different classification; 2) the inventions have acquired a separate status in the art due to their recognized divergent subject matter; and 3) the inventions require a different field of search**, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Nga B. Nguyen whose telephone number is

(571) 272-6796. The examiner can normally be reached on Monday-Thursday from 9:00AM-6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kambiz Abdi can be reached on (571) 272-6702.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (571) 272-3600.

8. Any response to this action should be mailed to:
